Additional Registration Information for Distance Education Students

You can access the current class schedule by accessing the online registration site (see steps above) and choosing the “Additional Information” option, instead of the “Register Here” option. This is the most updated way to review the schedule of classes, as it reflects “real time” enrollment numbers and will reveal what classes are still available for enrollment.

Payment is due at the time that you register! If payment is not made at the time that you register, you will be dropped from your courses without notice!

If you have problems with web registration, either call the HCC Help Desk at 713.718.8800, or feel free to call or email the registration help persons listed on the *Online Registration: Helps and Hints* website (<http://www.hccs.edu/dev/dev.htm>).

We hope this information helps! Please let us know if you have any additional questions or concerns!
